

Muhammad Kashif Sultan

Data Scientist / Machine Learning Engineer / AI Engineer

Sahiwal, Punjab, Pakistan | +92-3047992833 | datascibykashi.vercel.app | mk695870@gmail.com | linkedin.com/in/muhammad-kashif-sultan | github.com/mr-kashi6t8

PROFESSIONAL SUMMARY

Data Scientist and ML Engineer with hands-on experience delivering end-to-end machine learning solutions for businesses, startups, and research teams. Proven expertise in predictive modeling, NLP pipelines, Explainable AI (SHAP, LIME), and Streamlit dashboard deployment.

EDUCATION

Bachelor of Science in Computer Science | Comsats University Islamabad | CGPA : 3.86 | September 2023 – June 2027
– Relevant Coursework: Machine Learning, Data Structures & Algorithms, Database Systems, Probability & Statistics, Linear Algebra, Software Engineering, Artificial Intelligence

TECHNICAL SKILLS

Languages : Python, SQL, Java, C++

ML & Data Libraries : Scikit-learn, XGBoost, CatBoost, LightGBM, NumPy, Pandas, Matplotlib, Seaborn, Plotly, SciPy, HuggingFace Transformers, TensorFlow (Beginner), PyTorch (Beginner)

Databases : MongoDB, MySQL

Concepts : Exploratory Data Analysis (EDA), Predictive Modeling, Statistical Analysis, Feature Engineering, Feature Selection, Data Wrangling, Data Cleaning, Data Pipeline, Dimensionality Reduction, Model Evaluation, Model Deployment, Cross-Validation, REST APIs, Supervised Learning, Unsupervised Learning, Regression, Classification, Clustering, Neural Networks, Natural Language Processing (NLP), Small-Dataset Learning, Reporting and Documentation

Tools : Jupyter Notebook, Google Colab, Git, GitHub, VS Code, Power BI, Excel, Kaggle, Streamlit, Flask, Model Deployment

EXPERIENCE

Data Scientist | DataSciByKashi (Freelance) | Remote | June 2025 – Present
– Founded DataSciByKashi, delivering AI, Machine Learning, Deep Learning, and Interactive Dashboard solutions to **10+** businesses, startups, and researchers.
– Led **15+** end-to-end projects including Predictive Modeling, NLP, Image Recognition, and Automated Analytics, converting raw data into actionable insights.
– Collaborated with clients to deliver tailored data-driven solutions, improving business decision-making efficiency by **30%**.

Data Scientist(Part-Time) | Data Zenix Solutions | Remote | September 2025 – October 2025
– Improved **dataset quality by 30%** through Data Cleaning, Preprocessing, and Feature Transformation; conducted Exploratory Data Analysis (EDA) and Statistical Analysis to identify trends, anomalies, and correlations.
– Built and deployed Classification and Regression models achieving **85%+ predictive accuracy** using Scikit-learn; developed interactive dashboards using Matplotlib, Seaborn, and Streamlit, reducing reporting time by **40%**.
– Delivered Predictive Modeling, Customer Behavior Analysis, and Performance Evaluation projects in a remote Agile environment using Python, Pandas, NumPy, and SQL.

Volunteer Research Assistant | Cradle Lab | Remote | October 2025 – November 2025
– Performed data collection, cleaning, and statistical analysis on research datasets, ensuring **100%** data quality and accuracy; designed and refined research methodologies in collaboration with cross-functional teams.
– Applied Data Science and Machine Learning techniques to real-world research problems; produced technical documentation, reports, and presentations improving research delivery efficiency by **40%**.

PROJECTS

Cyberbullying Detection System | Python, Pandas, Scikit-learn, Transformers, LIME, SHAP, Streamlit | September 2025
– Built an end-to-end Cyberbullying Detection System on **230,000+ text entries**; fine-tuned DistilBERT achieving **89.2% F1-score** and **97.5% ROC-AUC** using TF-IDF, SVM, and Random Forest.

– Integrated LIME and SHAP for Explainable AI; deployed scalable web app using Streamlit for production-ready delivery.
PL Injury Impact Predictor | Python, XGBoost, CatBoost, LightGBM, SHAP, Streamlit, Pandas, Scikit-learn | December 2025
– Built a leakage-free ML pipeline integrating **6 datasets (643,000+)** records to predict Premier League match outcomes; trained CatBoost, XGBoost, and LightGBM achieving **46.05%** pre-match accuracy, consistent with bookmaker-level prediction.
– Conducted ablation study quantifying injury impact on match outcomes; integrated SHAP Explainable AI for global and local feature importance, deployed full prediction dashboard via Streamlit with **98.68% accuracy** using in-game statistics.

Health Insurance Claims Predictor | Python, XGBoost, Streamlit, Pandas, Scikit-learn, Jupyter | August 2025
– Built an end-to-end Health Insurance Claims prediction system using XGBoost achieving **94% test accuracy** and **R²= 0.90 regression score**; integrated batch CSV processing, confidence scoring, confusion matrix, and feature importance dashboards via Streamlit.

AWARDS AND CERTIFICATIONS

Provisional Freelancer – Pakistan Software Export Board (PSEB) | February 2026
Generative AI Application Developer – ULEFUSA - UETians Lahore Endowment Foundation USA | March 2026
IBM Professional Data Science Certificate – IBM, Coursera | September 2025
Certified Data Science Practitioner Specialization – CertNexus | September 2025
